

About us

CPDO is an organization that started in April 15, 2023 as a profitable and sustainable organization focused on transforming South Sudan's coffee sector by enhancing coffee farming practices, establishing a reliable market for coffee beans, and expanding into regional and international markets. We produce, process and deliver high-quality organic coffee in areas of Nzara and Yambio with the local traditional farmers of excelsa who supply the organization with quality and pure organic excelsa coffee.

CPDO is committed to uplifting local communities through employment opportunities, health benefits, and economic growth. And we contribute to both social impact and economic growth by providing training to farmers, enhancing processing methods, and establishing local coffee shops.

Our Mission

- To meet the international/local market demand. We will strive to establish a reliable market for coffee beans, and expanding into regional and international markets.
- To collaborate with the local coffee farmers. We will endeavor to provide training to local farmers, enhance their coffee processing methods, support them with coffee seedlings and establish local coffee shops for a stable market.

Our Vision

- To establish South Sudan as a renowned producer of high-quality, organic coffee in local, regional, and international markets, fostering economic growth, sustainable farming, and improved health through organic coffee consumption.

Our Core Values

- **Quality:** Commitment to delivering high-grade, organic coffee that meets international standards.
- **Sustainability:** Emphasis on sustainable farming and processing practices that support the environment and local communities.
- **Community Empowerment:** Focus on empowering local farmers, creating jobs, and enhancing economic opportunities.
- **Innovation:** Dedication to improving traditional coffee processing techniques and embracing new technologies.
- **Health & Well-being:** Promoting the health benefits of organic coffee for a healthier community.

Our Objectives

- **To deliver High-Quality Coffee Beans.** Ensure a reliable supply of pure organic green coffee beans to meet the demand of local, regional, and international markets.
- **To bring Coffee Products to Local Communities.** Provide the community with quality, final coffee products, including brewed coffee and finely processed coffee powder.
- **To enhance Health through Organic Coffee.** Improve public health by promoting the consumption of high-quality, organic coffee with known health benefits.
- **Modernize Traditional Coffee Processing.** Advance and innovate traditional methods of coffee processing to ensure high-quality output and greater marketability.

Our Key Activities

- Farmer Training & Capacity Building.
- Market Linkages & Export Promotion.
- Establishment of Coffee Shops & Retail Outlets.
- Improvement of Processing Techniques.
- Health Awareness Campaigns i.e. Educating the public on the benefits of organic coffee.
- Production of other food crops.
